

line_model.h

```
graph TD; line_model_h[line_model.h] --> model_h[model.h]; model_h --> iostream[iostream]; model_h --> vector[vector];
```

The diagram illustrates a set of file dependencies. At the top is a dark gray box labeled 'line_model.h'. A blue arrow points from this box down to a white box with a black border labeled 'model.h'. From the 'model.h' box, two blue arrows branch out downwards to two light gray boxes: 'iostream' on the left and 'vector' on the right.
